NOVEMBER 2021 EXAMINATION**

First Semester

INTRODUCTION TO PSYCHOLOGY

(2016 onwards)

Duration: 3 Hours

Maximum : 75 Marks

Part A

(10 × 2 = 20)

Answer **all** questions.

1. Define Psychology.
2. List out any two contributions of Stanley Hall.
3. What is sensory adaptation?
4. Define maintenance rehearsal.
5. Define conditioning.
6. What is an operant?
7. Define mental imagery.
8. What is divergent thinking?
9. Define frustration.

10. What is an incentive?

Part B

(5 × 5 = 25)

Answer **all** questions, choosing either (a) or (b).

11. (a) Discuss the various perspectives of psychology.

Or

(b) Explain the case study method in psychology.

12. (a) Discuss perceptual constancies.

Or

(b) Briefly highlight on methods to improve memory.

13. (a) Describe brain and emotional arousal.

Or

(b) Explain the different types of reinforcement.

14. (a) Briefly discuss the relationship between language and intelligence.

Or

(b) Define Creativity and discuss its nature.

15. (a) Explain the characteristics of Intelligence tests.

Or

- (b) Explain the different types of biological motives.

Part C

(3 × 10 = 30)

Answer **all** questions, choosing either (a) or (b).

16. (a) Elaborate on the different problem solving strategies with a suitable example.

Or

- (b) Discuss the origins of psychology in detail.

17. (a) Illustrate and explain the stage model of memory.

Or

- (b) Define concept formation and explain how concepts are formed in humans.

18. (a) Explain the different types of illusions with suitable examples.

Or

- (b) Explain how intelligence is measured?

RESEARCH METHODOLOGY IN PSYCHOLOGY

(2016 onwards)

Duration : 3 Hours

Maximum : 75 Marks

Part A

(10 × 2 = 20)

Answer **all** questions.

1. What are the types of social sciences research?
2. Mention the objectives of social sciences research.
3. What do you mean by selection of research problem?
4. Define experimental research design.
5. What is probability sampling?
6. Define reliability.
7. List out various measures of central tendencies.
8. Define hypothesis.
9. What are the major components of research report?

10. Define index.

Part B

(5 × 5 = 25)

Answer **all** questions, choosing either (a) or (b).

11. (a) Explain the scope and limitations of social sciences research.

Or

(b) Describe the criteria of good research.

12. (a) Formulation of aims and objectives for research – Discuss.

Or

(b) Importance of pilot study – Explain.

13. (a) Explain factors affecting the size of sample.

Or

(b) Write notes on rating scale.

14. (a) Describe the steps in data analysis.

Or

(b) Brief on correlation and its types.

15. (a) Role of computers in research – Discuss.

Or

(b) What is the need and importance of research report?

Part C

(3 × 10 = 30)

Answer **all** questions, choosing either (a) or (b).

16. (a) Discuss about research design.

Or

(b) Explain parametric and non-parametric test.

17. (a) Describe about data analysis and interpretation.

Or

(b) Enumerate various measures of dispersion.

18. (a) Explain different types of sampling methods.

Or

(b) Enumerate different methods of data collection.
