INTRODUCTION TO PSYCHOLOGY

(2016 onwards)

Duration : 3 Hours

Maximum : 75 Marks

Part A

(10 × 2 = 20)

Answer **all** questions.

1. Define Psychology.
2. List out any two contributions of Wilhelm Wundt.
3. What is absolute threshold?
4. Define elaborative rehearsal.
5. Define learning.
6. What is spontaneous recovery?
7. Define language.
8. What is convergent thinking?
9. Define nAch.
10. What is a drive?

Part B

(5 × 5 = 25)

Answer **all** questions.

11. (a) Briefly discuss brain and behaviour.

Or

- (b) Explain the survey research method in psychology.

12. (a) Explain the determinants of attention.

Or

- (b) Briefly explain forgetting.

13. (a) Discuss the physiology of emotions.

Or

- (b) Explain individualized learning.

14. (a) Explain the properties of language.

Or

- (b) Discuss the pattern of language development.

15. (a) Explain the incentive theory of motivation.

Or

- (b) Briefly explain the triarchic theory of intelligence.

Part C

(3 × 10 = 30)

Answer **all** questions.

16. (a) Explain visual perception.

Or

- (b) Explain the various models of mind.

17. (a) Explain LTM and its storehouses.

Or

(b) Elaborate on the different barriers to problem solving with suitable examples.

18. (a) Discuss operant conditioning in detail.

Or

(b) Explain the different types of motives in detail.

DEVELOPMENTAL PSYCHOLOGY

(2016 onwards)

Duration : 3 Hours

Maximum : 75 Marks

Part A

(10 × 2 = 20)

Answer **all** questions.

1. Explain the concept of human development.
2. What does prenatal development mean?
3. What are different parenting styles?
4. What is prosocial behaviour?
5. Explain puberty.
6. What is self-concept?
7. What is emotional intelligence?
8. What is menopause?
9. What is euthanasia?
10. What does 'purpose in life' mean?

Part B

(5 × 5 = 25)

Answer **all** questions.

11. (a) Write a note on types of childbirth.

Or

- (b) What are significant milestones of motor development in infancy?

12. (a) What are common fears faced by toddlers?

Or

- (b) How does language develop in toddlerhood?

13. (a) What factors influence development of self-concept?

Or

- (b) Describe an adolescent's relationship with peers.

14. (a) Discuss the physical changes in middle adulthood.

Or

- (b) Discuss the cognitive development of an early adult.

15. (a) What changes happen in psychosocial development in late adulthood?

Or

- (b) What psychological issues accompany death and loss?

Part C

(3 × 10 = 30)

Answer **all** questions.

16. (a) Elaborate on the influences of environment on prenatal development.

Or

- (b) Describe Piaget's stages of cognitive development.

17. (a) Discuss the social and emotional development of toddlers.

Or

(b) Discuss the relationship of adolescence with family, peers and society.

18. (a) What changes characterize sexuality and reproductive functioning in middle age?

Or

(b) Discuss the changes that happen in cognitive functioning of older adults.

RESEARCH METHODOLOGY IN PSYCHOLOGY

(2016 onwards)

Duration: 3 Hours

Maximum : 75 Marks

Part A

(10 × 2 = 20)

Answer **all** questions.

1. Mention the need of research in psychology.
2. What are the criteria of a good research?
3. State the importance of research review.
4. What do you mean by pilot study?
5. What is a sampling?
6. List out the advantages of primary data in Psychological research.
7. What are parametric tests?
8. What is a rating scale?
9. Mention the steps in report writing.
10. State the advantages of research proposal

Part B

(5 × 5 = 25)

Answer **all** questions.

11. (a) Explain the scope and importance of scientific research method.

Or

- (b) Elaborate the methods of formulating a research hypotheses.

12. (a) Explain the nature and importance of case study in Psychology.

Or

- (b) Discuss the steps involved in sampling process.

13. (a) Explain the role of structured questions in survey process.

Or

- (b) Write a note on construction of attitude scale.

14. (a) Differentiate between qualitative and quantitative research.

Or

- (b) Discuss the importance and the process of data analysis.

15. (a) Explain the significance of correlation analysis in psychological research.

Or

- (b) Elaborate the various steps in the research report writing.

Part C

(3 × 10 = 30)

Answer **all** questions.

16. (a) What is a research problem? Explain the criteria for the selection of a research problem.

Or

- (b) What is the purpose of sampling? Discuss the various sampling methods.

17. (a) Explain the different methods of data collection.

Or

- (b) Discuss the different types of interviews adopted in psychological research.

18. (a) Describe the various methods of estimating reliability of an instrument.

Or

- (b) Analyse the role and significance of computers in research.
