**DISTANCE EDUCATION**

**M.Sc.(Psychology) DEGREE EXAMINATION,  
DECEMBER 2019.**

**First Semester**

**THEORETICAL PERSPECTIVES IN PSYCHOLOGY**

**(CBCS – 2018-19 Academic Year Onwards)**

**Time : Three hours**

**Maximum : 75 marks**

**PART A — (10 × 2 = 20 marks)**

**Answer ALL questions.**

1. Define the term personality.
2. Write short notes on learning.
3. State the ERG theory.
4. What are the different types of healing?
5. Give the strategies to improve memory.
6. What do you mean by sustained attention?
7. What is illusion?
8. Write down the laws of perceptual organisation.
9. What is an example of cognitive dissonance theory?
10. Write short note on constructivism.

PART B — (5 × 5 = 25 marks)

Answer ALL questions, choosing either (a) or (b).

11. (a) Explain the sigmund freud's approach of psycho analytical perspective.

Or

- (b) Distinguish between classical conditioning Vs operant conditioning.

12. (a) Compile the theory of needs according to McClelland.

Or

- (b) Discuss the Carl Roger's self theory of personality.

13. (a) Elucidate the Bandura's model of social learning theory.

Or

- (b) Define attention. Explain the various determinants of attention.

**DISTANCE EDUCATION**

**M.Sc.(Psychology) DEGREE EXAMINATION,  
DECEMBER 2019.**

**First Semester**

**LIFE SPAN PSYCHOLOGY**

**(CBCS 2018–19 Academic Year Onwards)**

**Time : Three hours**

**Maximum : 75 marks**

**PART A — (10 × 2 = 20 marks)**

**Answer ALL questions.**

1. Mention the piagets cognitive stages development.
2. Write short note on ADHA.
3. What are the physical health problems of adulthood.
4. Distinguish biological growth Vs cognitive growth.
5. Define the term Juvenile delinquency.
6. Derive the theory of post formal thought.
7. Write short note on biological aging.
8. What is called career planning?
9. Write note on social motives.
10. Describe Communication.

## PART B — (5 × 5 = 25 marks)

Answer the following questions.

11. (a) Enumerate the Erickson's psycho-social stages of development.

Or

- (b) Explain the principles of development.

12. (a) Explain in detail about motor skills.

Or

- (b) Compile and contribution of piaget's in the area of language acquisition.

13. (a) Explain the theory of love.

Or

- (b) Elucidate the stages of dying.

14. (a) Expound the role of psychoanalytic theory in personality development.

Or

- (b) Analyse the role of reinforcement in learning.

15. (a) Compare altruism and helping behaviour.

Or

- (b) Describe the types of group task performance.

PART C — ( $3 \times 10 = 30$  marks)

Answer any THREE questions.

16. Analyse the Freud's psycho sexual stages of development.
  17. Explain the physical, cognitive and socio emotional development in early childhood.
  18. "Adolescence is the period of stress and storm" – Justify.

RESEARCH METHODOLOGY

(CBCS 2018 – 19 Academic year onwards)

Time : Three hours

Maximum : 75 marks

PART A — ( $10 \times 2 = 20$  marks)

Answer ALL the questions.

1. What do you mean by research? Give the types of research.
2. List out the factors affecting research design.
3. What are the steps involved in observation?
4. Give the advantages and limitations of schedules and questionnaires.
5. What are the methods of constructing scaling techniques?
6. How is review of literature useful in a research?
7. Mention the criteria for selection of tools.
8. What are the measures of central tendency?
9. Explain ANOVA with an example.
10. What is Ex-post facto design?

PART B — ( $5 \times 5 = 25$  marks)

Answer ALL the questions.

11. (a) Explain the steps of the research process using a suitable research title.

Or

- (b) Write a note on schedule. Give its kinds and the procedure used in the formulation of a schedule.

12. (a) Define research question and research hypothesis. Describe the purpose of each and provide example.

Or

- (b) Discuss about the functions and sources of review of literature.

13. (a) Discuss the methods of sampling.

Or

- (b) Write a model research proposal.

14. (a) What are the characteristics of a normal probability curve? Give its application.

Or

- (b) Write in detail about the experimental designs in research.

15. (a) What is a frequency distribution table? Explain with a simple example.

Or

- (b) Give the purpose and conditions of major parametric and non – parametric statistical techniques using SPSS in psychology.

PART C — ( $3 \times 10 = 30$  marks)

Answer any THREE questions.

16. Explain the difference between a research question and a research hypothesis and describe the appropriate use of each.
  17. Discuss in detail about the problems encountered by researchers in India.
  18. Write an elaborate essay on research methods.
  19. What are the problems encountered by researchers in India? Give solutions for any two problems.
  20. Discuss in detail about the major parametric and non – parametric statistical techniques using SPSS.

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL questions.

1. What is meant by attention?
2. Mention the importance of cognitive neuro psychology in human well being.
3. List out the process of attention formation.
4. What is semantic memory?
5. Define sensory discrimination.
6. What is brain plasticity?
7. What are the functions of procedural memory?
8. What is meant by perception?
9. How is analogies helpful in problem solving?
10. What is meant by memory distortion.

## PART B — (5 × 5 = 25 marks)

Answer ALL questions.

11. (a) Write the role of selective attention in attention formation.

Or

- (b) Explain the structure of nervous system.

12. (a) Describe the importance of electrophysiological methods in studying brain function.

Or

- (b) Discuss the capacity model of attention.

13. (a) What is memory? Elucidate Iconic and Echonic memory.

Or

- (b) Explain the process of eye witness testing.

14. (a) Enumerate the pathological conditions of Alzheimer's disease.

Or

- (b) Write a note on inductive and deductive reasoning.

15. (a) Explain how experts solve problem.

Or

- (b) Explain the importance of Luria–Nebraska neuropsychological battery

PART C — ( $3 \times 10 = 30$  marks)

Answer any THREE questions.

16. Enumerate the function and characteristics of sensory register.
  17. Explain the various techniques for assessing Brain function.
  18. Describe multi-store memory model of Atkinson and Shiffrin.
  19. Describe the effectiveness of computer based training program in Brain damage.
